

REGULATIONS

Department: Recreation-Aquatics

Title: Aquatic Complex Slide Regulations

Date: May 2, 2006

Author: Nicole Miller, Recreation Director

1. Please be aware of the strong undertow at the bottom of the slide. Lifeguards may request adults to provide extra assistance to their children at the bottom.
2. One person allowed on the slide at a time, with the exception of adults with small children. The lifeguard will signal when it is clear and safe to proceed.
3. Adults with small children may ride double at the discretion of the lifeguard. Anyone riding the waterslide alone must have appropriate swimming capabilities based upon the lifeguard's discretion. The lifeguard may request swimmers to perform an evaluation to assess skills.
4. Adults please "catch" your small or non-swimming child at the bottom of the slide. Lifeguards are not responsible for "catching" small or non-swimming children unless in an emergency.
5. Lifejackets and similar safety equipment may not be utilized on the slide. For additional safety concerns, we discourage wearing jewelry, hats, sunglasses, goggles and other like items on the slide.
5. Please sit down face forward, feet first, while riding and exiting the slide. (Please no turning or spinning, standing, kneeling, or stopping in the flume)
6. Please clear the slide area as quickly as possible upon entering the water. Please use the stairs to exit the water.
7. The Slide Attendant will signal when it is safe for the next slider to proceed.

Management, including lifeguards, have the authority to implement and enforce rules to ensure a safe and pleasant environment for all to experience.
